

Product Code: 7968

Sector: Motorsport

Issue No: 2

Issue Date: 01/01/22

## MOTORSPORT CRX LS 75w90 NT+

Competition fully synthetic NANODRIVE ester limited slip transmission oil

### Application

Designed for the lubrication of competition differentials requiring limited slip performance. Suitable for manual transmission/transaxles and differentials.

Recommended where API GL-4 or GL-5 fully synthetic oil is specified.

### Performance Profile

API GL-4, GL-5 with Limited slip performance

### Typical Characteristics

Density @ 15°C, g/ml	0.856
Kinematic Viscosity @ 100°C, cSt	15.1
Flashpoint °C	>220

### What is NANODRIVE?

NANODRIVE is the award-winning Millers Oils motorsport brand that incorporates advanced nanoparticle technology for high performance applications, where stress on components is at its limit.

### How does it work?

In gear oils, NANODRIVE technology combines advanced nanoparticles with triple ester chemistry to greatly reduce friction, protect against wear and maximise power.

### Features & Benefits

- Fully synthetic oils protect the gear teeth at both low start-up and high running temperatures.
- Triple ester formulation works synergistically for optimised film strength and anti-wear protection providing component longevity.
- Includes second generation NANODRIVE low friction technology that maximises torque and power.
- Exceptional cold flow properties for easier gear changes
- Fast lubrication flow to component extremes on start up.
- Low friction/low drag formulation to help reduce operating temperatures.
- Limited slip additive reduces judder, noise and increase driveline longevity.
